**MASTER OF PHYSICAL EDUCATION (MPEd)
Syllabus 2022-2024**

Preamble:

The Master of Physical Education (M.P.Ed.) two years (Four Semesters Choice Based Credit System) programme is a professional programme meant for preparing teachers of physical education for conducting physical education and sports activities in classes XI and XII as well as Assistant Professor / Directors / Sports Officers in Colleges / Universities and Teacher Education in College of Physical Education.

M.P.Ed. programme shall be designed to integrate the study of childhood, social context of Physical Education, subject knowledge, pedagogical knowledge, aim of Physical Education and communication skills. The programme comprises of compulsory and optional theory as well as Practicum courses and compulsory internship.

Regulations:

1. Eligibility for admission

1. The Candidate for admission to the Master of Physical Education (M.P.Ed.,) degree programme should have passed B.P.Ed., examination from any recognized University with minimum of 50%marks and it should be approved by the syndicate of Tamilnadu Physical Education and Sports University, Chennai.

2. Age limit:

- a. The candidates should not have completed 35 years age as on 1st July however, relaxation of three years may be given for SC/ ST.

- b. Ex – Service man / Experienced Physical Education Teachers shall be given relaxation of six years of age.
3. The candidate should be medically fit and free from any physical deformities. They should submit application form along with medical certificate issued by a Government Doctor not below the rank of Civil Surgeon to the effect that the candidate is fit to undergo strenuous activities.
4. Admission is made based on the following:
- | | | |
|----------------------------------|---|------------------|
| Qualifying Examination (B.P.Ed.) | - | 25 Marks |
| Games and Sports Participation | - | 25 Marks |
| * Games and Sports Skill Test | - | 50 Marks |
| Written Test | - | 35 Marks |
| Personal Interview | - | 15 Marks |
| Total | - | 150 Marks |
- *(The candidate has to perform skill tests in any one of the following games or athletic events. Badminton, Basketball, Cricket, Football, Handball, Hockey, Kabaddi, Kho - Kho, Tennis and Volleyball)
5. The candidates will be selected on the basis of merit following the reservation of seats as prescribed by the Government of Tamil Nadu.

2. Duration:

The M.P.Ed programme shall be of a duration of two academic years, that is, four semesters. However, the students shall be permitted to complete the programme requirements within a maximum of three years from the date of admission to the programme.

3. The CBCS System:

All Programmes shall run on Choice Based Credit System (CBCS). It is an instructional package developed to suit the needs of students, to keep pace with the developments in higher education and the quality assurance expected of it in the light of liberalization and globalization in higher education.

4. Course:

The term course usually referred to, as 'papers' is a component of a programme. All courses need not carry the same weight. The courses should define learning objectives and learning outcomes. A course may be designed to comprise lectures / tutorials / laboratory work / field work / outreach activities / project work / vocational training / viva / seminars / term papers / assignments / presentations / self-study etc. or a combination of some of these.

5. Courses of Programme:

The M.P.Ed. programme consists of a number of courses, the term 'Course' applied to indicate a logical part of subject matter of the programme and is invariably equivalent to the subject matter of a "paper" in the conventional sense. The following are the various categories of courses suggested for the M.P.Ed. programme.

Theory	- Core Course
	- Elective Course
	- Generic Elective Course
Practicum	- Compulsory Course (Track and Field)
	- Elective Course
Internship	- Teaching / Coaching Practices
Ability and Skill Enhancement Course	- Ability Enhancement Compulsory Course / Co-curricular Course / Skill Enhancement Course

6. Semesters:

An academic year is divided into two semesters. Each semester consist of 17-20 weeks of academic work equivalent to 100 actual teaching days. The odd semester scheduled from May / June to November / December and even semester from November / December to April / May. The institution works for a minimum of 35 working hours in a week (five or six days a week).

7. Working days:

There shall be at least 200 working days per year.

8. Credits:

The term 'Credit' refers to a unit by which the programme is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or one and half / two hours of practicum work/ field work per week. The term 'Credit' refers to the weight given to a course, usually in relation to the instructional hours assigned to it. The total minimum credits, required for completing a M.P.Ed. programme is 90 credits and for each semester 20 credits.

Provision of Bonus Credits Maximum 6 Credits in each Semester

S. No.	Special Credits for Extra Co-curricular Activities	Credit
1	Sports Achievement at Stale level Competition (Medal Winner)	1
	Sports Achievement National level Competition (Medal Winner)	2
	Sports participation International level Competition	4
2	Inter University Participation (Any one game)	2
3	Inter College Participation (Min. two game)	1
4	National Service Scheme	2
5	Blood Donation / Cleanliness Drive / Community Services	2
6	Mountaineering – Basic Camp, Advance Camp / Adventure Activities	2
7	Organization / Officiating – State / National Level in any two game	2
8	News Reporting / Article Writing / book writing / Progress report writing	1

Students can earn maximum 6 Bonus credits in each semester by his participation in the above mentioned activities duly certified by the Head of the institution. This Bonus credit will be used only to compensate loss of credits in academic activities.

9. Examinations:

- i. There shall be examinations at the end of each semester, for first semester in the month of November / December: for second semester in the month of April / May. A candidate who does not pass the examination in any course(s) shall be permitted to appear in such Re-appearance course(s) in the subsequent examinations to be held in November / December or April / May.
- ii. A candidate should get enrolled /registered for the first semester examination. If enrollment/registration is not possible owing to shortage of attendance beyond condonation limit / rules prescribed or belated joining or on medical grounds, such candidates are not permitted to proceed to the next semester. Such candidates shall redo the semester in the subsequent term of that semester as a regular student; however, a student of first semester shall be admitted in the second semester, if he has successfully kept the term in first semester.

10. Condonation:

Student must have 75% of attendance in each course for appearing the examination. Students who have 70% to 74% of attendance shall apply for condonation in the prescribed form with the prescribed fee along with the medical certificate. Students who have 50% to 74% of attendance shall not be allowed to write the examination. They will be allowed to write the examination on next semester as arrear after compensating the required hours. Students who have below 50% of attendance are not eligible to appear for the examination. They should redo the semester.

11. Pattern of Question Papers:

Question papers shall have questions corresponding to five units of each theory course.

Format of Question Paper for 5 Units:

Each question paper shall have three parts. The pattern will be as follows:

PART	DESCRIPTION	MARKS
A	Multiple choice questions - Write the answers to all the questions (Two questions from each Unit) 10 x 1 marks	10
B	Write short notes (either /or method) Answer all the questions (Two questions from each unit) 5 x 4 marks	20
C	Answer in detail (essay type question: either / or method): (Two questions from each unit) 5 x 6 marks	30
Total		60

12. Evaluation:

The performance of a student in each course is evaluated in terms of percentage of marks with a provision for conversion to grade point. Evaluation for each course shall be done by a Continuous Internal Assessment (CIA) by the concerned course teacher as well as by end semester examination and will be consolidated at the end of course. The components for continuous internal assessment are:

Continuous Internal Assessment (CIA) Test-I	10 Marks
Continuous Internal Assessment (CIA) Test-II	10 Marks
Pre semester	10 Marks
Assignments	5 Marks
Percentage of Attendance	5 Marks
95 % - and above - 5 Marks	
90 % – 94 % - 4 Marks	
85 % – 89 % - 3 Marks	
81 % – 84 % - 2 Marks	
75 % – 80 % - 1 Mark	
Total	40 Marks

Attendance shall be taken as a component of continuous assessment, although the students should have minimum 75% attendance in each course. In addition to continuous evaluation component, the end semester examination, which will be written type examination of at least 3 hours duration, would also form an integral component of the evaluation. The ratio of marks to be allotted to continuous internal assessment and to end semester examination is 40:60. The evaluation of Practicum work, wherever applicable, will also be based on continuous internal assessment and on an end-semester Practicum examination.

13. Minimum Passing Standard:

No student shall be eligible for the award of the M.P.Ed., degree unless he has passed the written examinations (Part-I), the Practicum (Part-II), Internship (Part-III), Ability and Skill Enhancement Course (Part IV) and Dissertation (Part V).

A minimum of **50% of marks in each Theory and Practical** is prescribed for a pass. A student has to secure 50% minimum in the end semester examinations (Internal and external combined but with a minimum of 50% in internal and external).

14. Grading:

Once the marks of the CIA (Continues Internal Assessment) and ESE (End Semester Examination) for each of the courses are available, both (CIA and ESE) will be added. The marks thus obtained for each of the courses will then be graded from the first semester onwards the average performance within any semester from the first semester is indicated by Semester Grade Point Average (SGPA) while continuous performance (including the performance of the previous semesters also) starting from the first semester is indicated by Cumulative Grade Point Average (CGPA). These two are calculated by the following formula:

Semester Grade Point Average : $SGPA = \sum C_i G_i / \sum C_i$

Where

$\sum C_i G_i$ = Sum of the multiplication of grade points by the credits of the courses in a semester.

$\sum C_i$ = Sum of the credits of the courses in a semester.

Cumulative Grade Point Average :

$$CGPA = \frac{\sum_n \sum_i C_{ni} G_{ni}}{\sum_n \sum_i C_{ni}}$$

Where

$\sum_n \sum_i C_{ni} G_{ni}$ = Sum of the multiplication of grade points by the credits of the cumulative semester / entire programme.

$\sum_n \sum_i C_{ni}$ = Sum of the credits of the courses of the cumulative semester / entire programme.

15. Classification of Final Results:

For the purpose of declaring a candidate to have qualified for the Degree of Master of Physical Education in the First class / Second class / First class with Distinction, the marks and the corresponding CGPA earned by the candidate in Core Courses will be the criterion. It is further provided that the candidate should have scored the First / Second Class separately in both the grand total and end Semester (External) examinations.

16. Award of the M.P.Ed. Degree:

A candidate shall be eligible for the award of the degree of the M.P.Ed. only if he has earned the minimum required credit including Bonus Credits of the programme prescribed above.

17. Letter Gradings and Grade Points:

Two methods-relative grading or absolute grading - have been in vogue for awarding grades in a course. The relative grading is based on the distribution (usually normal distribution) of marks obtained by all the students in the course and the grades are awarded based

on a cut-off mark or percentile. Under the absolute grading, the marks are converted to grades based on pre-determined class intervals. To implement the following grading system, the colleges and universities can use any one of the above methods.

The grades for each course would be decided on the basis of the percentage marks obtained at the end-semester external and internal examinations as per following table:

RANGE OF MARKS	GRADE POINTS	LETTER GRADE	DESCRIPTION
90 - 100	9.0 - 10.0	O	Outstanding
80 - 89.99	8.0 - 8.99	D+	Excellent
75 - 79.99	7.5 - 7.99	D	Distinction
70 - 74.99	7.0 - 7.49	A+	Very Good
60 - 69.99	6.0 - 6.99	A	Good
50 - 59.99	5.0 - 5.99	B	Average
00 - 49.99	0 - 0	U	Re - Appearance
ABSENT	0 - 0	AAA	Absent

18. Grade Point Calculation:

Calculation of Semester Grade Point Average (SGPA) and Credit Grade Point (CGP) and declaration of class for M.P.Ed Programme.

The credit grade points are to be calculated on the following basis:

$$\text{SGPA} = \frac{\text{Sum of the Multiplications of Grade Points by Credits of the Courses in a Semester}}{\text{Sum of the Credits of the Courses in a Semester}}$$

19. Revaluation of Examination Papers:

In respect of M.P.Ed Degree Course, any candidate can apply for revaluation of his answer script of any theory paper he had appeared, if he does not satisfy with the marks awarded to him in the paper. Firstly, the candidate has to fill in prescribed application form and remit ₹ 100 per paper for getting the photo-copy of the answer script. After going through the script, if the candidate

desires for revaluation of the answer paper he has to fill in the prescribed application form, pay the revaluation fee (₹ 400/- per paper) by cash in the Controller's office.

After the expiry of late dates, the script will be revalued by a panel of evaluators and the revised marks will be intimated to the candidates. The candidates who secure change in marks in the revaluation have to surrender their original mark sheets to the Controller's office to get revised mark sheets. The revaluation system is not applicable for the Practicum subjects. Applications received after the prescribed due dates will not be entertained by the institution.

COURSE OF STUDY

- a. Duration of the Course of the study is for two academic years, consisting of four semesters. The total working days shall be not less than 200 days in an academic year, each semester consists of not less than 100 days. Each working day shall consist of four hours of practical work (morning and evening two (2) hours each session) and three (3) hours of theory.
- b. The course of study shall consist of three parts i.e., Part-I: Theory; Part-II: Practicum; Part-III: Internship; Part-IV: Ability and Skill Enhancement Course and Part-V: Dissertation as indicated below.

PART I – THEORY

S. No	Paper Type	Course Code	Title of the Paper
First Semester			
1	Core Papers	221MCC1	Sports Psychology & Sports Sociology
		221MCC2	Physiology of Exercise
		221MCC3	Tests, Measurement and Evaluation in Physical Education

9	Elective Papers	224MEC	Any one course from the list of discipline specific elective course Choices for Second Year

PART II – PRACTICUM

FIRST YEAR

Practicum Course

Flag Hoisting, March Past, Ceremonies like Opening, Closing, Victory (During Intramurals Competitions) of Different Sports and Games / Lead up Games / Minor Games / Relay Games.

National Flag: Meaning, concept and significance of National Flag, Symbolism of Tri-colour and Wheel. Code of hoisting or lowering of Flag, Dimensions of the Flag and tri-colour proportions.

Honour of the Flag and its use. Penalty of misusing or dishonouring the Flag.

Opening and Closing Ceremonies: Schedule and formality of Opening Ceremony- Unfurling of Flag, Flame igniting, Oath, March-Past of players/teams, Salutation, Declaration of Opening of the Meet. brief address by the guests, announcement of beginning of competition Victory & Prize distribution Ceremony- Planning of schedule for victory ceremony.

Closing Ceremony: Assembly of sports-persons, March-Past, Salutation, re-assembly, brief address of the guests, Declaration of results and distribution of Prizes/ Certificates, Vote of thanks, Ceremonial Flag-lowering, Flame extinguishing, Declaration of Closing of the Meet.

Practical of the organization of Sports / Athletic Meet during Intramural Programme should be arranged as a project by the students under the supervision of the faculty. Organization of Sports Festival, Play Day, Social Party games, etc.

Part-II: Practicum Course

Course Code	Title
First Semester	
221MPC1	Track and Field - I Running Events (50)
221MPC2	Gymnastics (Floor Exercises) (50) Aerobics: Touch out, V Step, A Step, Jump on the Spot, Knee Curl, Front Kick, Knee and Arm Lift, Side Kick (50)
221MPC3	Game of Specialization- I (First Best) Basketball/ Badminton/Cricket/ Football/ Handball/Hockey/ Kabaddi/ Tennis/ Volleyball (Any one game) (100)
221MPC4	Test, Measurement and Evaluation in Physical Education (50)
Second Semester	
222MPC1	Track and Field II: Jumping events & Hurdles (100)

223MPC3	Gymnastics (with apparatus) (50) Combative Sports - Boxing/ Fencing/Judo/ Taekwondo/ Karate/Kalari (Any one) (50)
223MPC4	Fitness Training : Conditioning Exercises: General and Specific Training Methods: Weight Training (Free Weights and Machine Weights) - Circuit Training Interval Training - Fartlek Training - Plyometrics Training, Swiss Ball Training - Medicine Ball Training - Core Board Training - Cross Training (50)
Fourth Semester	
224MPC1	Track and Field - IV Combined Events (100)
224MPC2	Game of Specialization – II (Second Best) (100)
224MPC3	Teaching / Coaching / Officiating in Game of Specialization (Second Best) (50)

Part-III: Internship

Course Code	Title
First Semester	
221MIC1	Field / Laboratory Work-I: Sports Psychology & Physiology of Exercises Laboratory (50)
221MIC2	Class Room Teaching-I: Five lessons on theory subjects (25), Organisation & Participation in Project Sports Meet, Intramural & Extramural Competitions (25)
Second Semester	
222MIC1	Field / Laboratory Work II: Athletic Care, Physiotherapy and Rehabilitation, Sports Medicine and Kinesiology and Biomechanics Laboratory (50)
222MIC2	Class Room Teaching-II: Five lessons on theory subjects (25) Organisation & Participation in Competitions: Project Sports Meet, Intramural and Extramural Competitions (25)
222MIC3	Teaching / Coaching / Officiating at Schools / Colleges / Institutions (50)
Third Semester	
223MIC1	Track and Field-I & II: Teaching / Coaching / Officiating and Specialization Games (50)

Course Code	Title
223MIC2	Class Room Teaching III: Five Lessons on Theory Subjects (25) Organisation & Participation in Project Sports Meet, Intramural and Extramural Tournaments (25)
223MIC3	Coaching Lessons of Specialization Games (50)
Fourth Semester	
224MIC1	Class Room Teaching-IV – Five lessons on theory subjects (25) Officiating, Organisation & Participation in Competitions: Project Sports Meet, Intramural and Extramural Competitions (25)
224MIC2	Internship - Coaching in Track and Field events at Schools /Colleges (50)

PART IV – ABILITY AND SKILL ENHANCEMENT COURSE

- 221AEC1** : Ability Enhancement Compulsory Course – Personality Development & Life Coping Skill (or)
- 221AEC2** : Management of Hypokinetic Diseases.
- 222AEC1** : Ability Enhancement Compulsory Course – Life Skill Management
- 222CCC1** : Co-curricular Course-Village Placement Programme.
- 223SEC1** : Skill Enhancement Course - Software based Statistical Application in Physical Education. (or)
- 223SEC2** : Management of Training Gadgets
- 224SEC1** : Skill Enhancement Course - Any Approved Online Course. (or)
- 224SEC2** : Professional preparation for SET/NET in Physical Education.

Part-V: Dissertation

223MIC1	Track & Field I & II and Specialization Games (Teaching / Coaching / Officiating) (50)	3	2	50	-	50
223MIC2	Class Room Teaching III: Five Lessons on Theory Subjects (25). Organisation & Participation in Project Sports Meet, Intramural and Extramural Competitions (25)	3	2	50	-	50
223MIC3	Coaching Lessons of Specialization Games (50)	3	2	50	-	50
	Total	36	28	560	240	800
Part-IV Ability and Skill Enhancement Course						
223SEC1 (or) 223SEC2	Skill Enhancement Course - Software Based Statistical Application in Physical Education (or) Management of Training Gadgets	2	2	-	-	-
	Self Study Hour	1	-	-	-	-
	Total		30			

*223MECA/224MECA, 223MECB/224MECB, 223MECC/224MECC, 223MECD/224MECD.

Note: Total number of hours required to earn 3 credits for each theory course are 51-60 hours per semester where as 102- 120 hours for each practicum course and internship.

Semester – IV

Part I: Theory Course						
Course Code	Title of the Papers	Total Hours	Credit	Internal Marks	External Marks	Total Marks
Core Course						
224MCC1	Information & Communication Technology (ICT) and Education Technology in Physical Education	3	3	40	60	100
224MCC2	Theories of Track and Field	3	3	40	60	100
Discipline Specific Elective Course (Anyone)						
224MEC *	Any one paper from the list of discipline specific elective course Choices for Second Year (Page No.22)	3	3	40	60	100
Part-II Practicum						
224MPC1	Track and Field - IV Combined Events (100)	5	3	50	50	100
224MPC2	Game of Specialization – II (Second Best) (100)	6	4	50	50	100
224MPC3	Teaching / Coaching / Officiating in Game of Specialization (Second Best) (50)	3	2	50	-	50

Part-III Internship						
224MIC1	Class Room Teaching-IV – Five lessons on theory subjects. (25) Officiating, Organisation & Participation in Competitions: Project Sports Meet, Intramural and Extramural Competitions (25)	3	2	50	-	50
224MIC2	Internship - Coaching in Track and Field events at Schools / Colleges (50)	3	2	25	25	50
	Total	29	22	345	305	650
Part-IV Ability and Skill Enhancement Courses						
224SEC1 (or) 224SEC2	Skill Enhancement Course – Any Approved Online course (or) Professional Preparation for SET / NET in Physical Education	2	2	-	-	-
	Self Study Hours	2	-	-	-	-
Part-V Dissertation						
224MDIS1	Dissertation	7	6	100	100	200
	Total	36	28	445	405	850

*223MECA/224MECA, 223MECB/224MECB, 223MECC/224MECC, 223MECD/224MECD.

Note: Total number of hours required to earn 3 credits for each theory course are 51-60 hours per semester where as 102- 120 hours for each practicum course and internship.

*** Discipline Specific Elective Courses for First Year**

221MECA/222MECA -Adapted Physical Education
221MECB/222MECB -Sports Technology & Sports Engineering
221MECC/222MECC -Yogic Science
221MECD/222MECD -Sports Management and Curriculum Design in Physical Education

*** Discipline Specific Elective Courses for Second Year**

223MECA/224MECA -Health Education and Sports Nutrition
223MECB/224MECB -Physical Fitness and Wellness
223MECC/224MECC -Special Olympics
223MECD/224MECD -Sports Journalism and Mass Media
Generic Elective Course
223MGEC1 - Indian Cultural Heritage
223MGEC2 - Value and Environmental Education

PROGRAMME OUTCOMES

- After completion of the M.P.Ed programme, the teacher trainees should be able to
- ◆ Analyze the application of biomechanical & kinesiological principles during sports activities and apply sports nutrition principles among athletes
 - ◆ Measure psychological parameters, physical fitness components and basic playing abilities in various sports and games.
 - ◆ Interpret the effect of exercise and training on muscular system, cardiovascular systems, respiratory system
 - ◆ Calculate measures of central tendency, measures of dispersions and scales and prepare research proposal and report
 - ◆ Manage first aid for sports injuries and facilitate various therapeutic exercises, stretching exercises for rehabilitation.
 - ◆ Develop physical fitness and motor fitness of persons with disabilities and identify the persons with intellectual disabilities for participating in the Special Olympics.
 - ◆ Use Microsoft application, e-sources & software, modern technology equipment in the field of physical education and sports
 - ◆ Demonstrate asanas, pranayama, Mudras, kriyas and bandhas
 - ◆ Organize sports programmes and design an innovative physical education curriculum according to the student's participation and construct running track and throwing events arena and jumping events arena.
 - ◆ Illustrate the various training plans for different sports and games and organize various recreative games.

FIRST SEMESTER - THEORY COURSES

221MCC1 - SPORTS PSYCHOLOGY AND SPORTS SOCIOLOGY (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To understand the Psychology concepts.
2. To understand about motivation.
3. To know about Goal setting.
4. To understand the Sociology concepts.
5. To understand about Group Cohesion.

UNIT I - Introduction

- 1.1 Meaning, Definition, History, Need and Importance of Sports Psychology
- 1.2 Present Scenario of Sports Psychology in India
- 1.3 Motor Learning: Basic Considerations in Motor Learning - Motor Perception - Factors Affecting Perception - Perceptual Mechanism
- 1.4 Personality: Meaning, Definition, Structure - Measuring Personality Traits
- 1.5 Effects of Personality on Sports Performance.

UNIT II - Motivation

- 2.1 Meaning and Definition, Types of Motivation: Intrinsic, Extrinsic
- 2.2 Achievement Motivation: Meaning, Measuring of Achievement Motivation
- 2.3 Anxiety: Meaning and Definition, Nature, Causes, Method of Measuring Anxiety. Competitive Anxiety and Sports
- 2.4 Performance. Stress: Meaning and Definition, Causes. Stress and Sports Performance
- 2.5 Aggression: Meaning and Definition, Method of Measurement. Aggression and Sports Performance. Self-Concept: Meaning and Definition, Method of Measurement.

UNIT III - Goal Setting

- 3.1 Meaning and Definition, Process of Goal Setting in Physical Education and Sports
- 3.2 Relaxation: Meaning and Definition, types and methods of psychological relaxation
- 3.3 Psychological Tests: Types of Psychological Test: Instrument based tests: Pass-along test - Tachistoscope - Reaction timer - Finger dexterity board

- 3.4 Depth perception box - Kinesthesiometer board
- 3.5 Questionnaire: Sports Achievement Motivation, Sports Competition Anxiety.

UNIT IV - Sports Sociology

- 4.1 Meaning and Definition - Sports and Socialization of Individual Sports as Social Institution
- 4.2 National Integration through Sports
- 4.3 Fans and Spectators: Meaning and definition
- 4.4 Advantages and disadvantages on Sports Performance
- 4.5 Leadership: Meaning, Definition, types. Leadership and Sports Performance.

UNIT V - Group Cohesion

- 5.1 Group: Definition and Meaning, Group Size, Groups on Composition
- 5.2 Group Cohesion, Group Interaction, Group Dynamics
- 5.3 Current Problems in Sports and Future Directions - Sports Social Crisis Management
- 5.4 Women in Sports: Sports Women in our Society
- 5.5 Participation pattern among Women, Gender inequalities in Sports.
Practicals: Atleast five experiments related to the topics listed in the Units above should be conducted by the students in laboratory. (Internal assessment.)

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Define Educational psychology and Sports psychology and explain the motor learning and personality in detail	K1, K2
CO 2	Point out the types of motivation, stress, anxiety aggression during competition period	K1, K2
CO 3	Measure psychological parameters by using various psychological tools	K1, K2, K3
CO 4	Explain on sports and socialization and leadership	K1, K2
CO 5	Discuss the group cohesion and women in sports	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

221MCC2 - PHYSIOLOGY OF EXERCISE (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the effect of exercise on skeletal system.
2. To know the effect of exercise on cardiovascular system.
3. To know the effect of exercise on Respiratory system.
4. To understand metabolism and energy transfer.
5. To understand the climatic conditions, sports performance & ergogenic aids.

UNIT I - Skeletal Muscles and Exercise

- 1.1 Macro & Micro Structure of the Skeletal Muscle, Chemical Composition
- 1.2 Sliding Filament theory of Muscular Contraction
- 1.3 Types of Muscle fibre. Muscle Tone
- 1.4 Chemistry of Muscular Contraction - Heat Production in the Muscle
- 1.5 Effect of exercises and training on the muscular system.

UNIT II - Cardiovascular System and Exercise

- 2.1 Heart Valves and Direction of the Blood Flow
- 2.2 Conduction - System of the Heart - Blood Supply to the Heart - Cardiac Cycle
- 2.3 Stroke Volume - Cardiac Output - Heart Rate
- 2.4 Factors Affecting Heart Rate - Cardiac Hypertrophy
- 2.5 Effect of exercises and training on the Cardiovascular system.

UNIT III - Respiratory System and Exercise

- 3.1 Mechanics of Breathing - Respiratory Muscles, Minute Ventilation
- 3.2 Ventilation at Rest and During Exercise
- 3.3 Diffusion of Gases - Exchange of Gases in the Lungs - Exchange of Gases in the Tissues
- 3.4 Control of Ventilation - Ventilation and the Anaerobic Threshold. Oxygen Debt - Lung Volumes and Capacities
- 3.5 Effect of exercises and training on the respiratory system.

UNIT IV - Metabolism and Energy Transfer

- 4.1 Metabolism - ATP - PC or Phosphagen System
- 4.2 Anaerobic Metabolism - Aerobic Metabolism
- 4.3 Aerobic and Anaerobic Systems during Rest and Exercise
- 4.4 Short Duration High Intensity Exercises - High Intensity Exercise Lasting Several Minutes
- 4.5 Long Duration Exercises.

UNIT V - Climatic conditions and sports performance and ergogenic aids

- 5.1 Variation in Temperature and Humidity – Thermoregulation
- 5.2 Sports performance in hot climate, Cool Climate, high altitude
- 5.3 Influence of: Amphetamine, Anabolic steroids, Androstenedione, Beta Blocker, Choline, Creatine
- 5.4 Human growth hormone on sports performance. Narcotic, Stimulants: Amphetamines, Caffeine, Ephedrine, Sympathomimetic amines
- 5.5 Stimulants and sports performance.

Note: Laboratory Practicals in Physiology be designed and arranged internally.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Interpret the effect of exercise and training on muscular system	K1, K2, K3
CO 2	Describe the significance of exercise and training on cardiovascular system	K1, K2, K3
CO 3	Mention the importance of exercise on respiratory system	K1, K2, K3
CO 4	Point out the various metabolism and energy transfer during different exercises	K1, K2, K3
CO 5	Explain on ergogenic aids and its performance	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

221MCC3 - TESTS, MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basics of Test, measurement & Evaluation.
2. To know the motor fitness tests.
3. To know the physical fitness tests.
4. To know the Anthropometric, Aerobic & Anaerobic tests.
5. To know the specific skill tests.

UNIT I - Introduction

- 1.1 Meaning and Definition of Test, Measurement and Evaluation
- 1.2 Need and Importance of Measurement and Evaluation
- 1.3 Criteria for Test Selection - Scientific Authenticity
- 1.4 Meaning, definition and establishing Validity, Reliability, Objectivity
- 1.5 Norms - Administrative Considerations.

UNIT II - Motor Fitness Tests

- 2.1 Meaning and Definition of Motor Fitness
- 2.2 Test for Motor Fitness; Oregon Motor Fitness Test (Separately for boys and girls)
- 2.3 Motor Ability - Barrow Motor Ability Test
- 2.4 Newton Motor Ability Test - Muscular Fitness
- 2.5 Kraus Weber Minimum Muscular Fitness Test.

UNIT III - Physical Fitness Tests

- 3.1 Physical Fitness Test: AAHPERD Health Related Fitness Battery (revised in 1984)
- 3.2 Roger's physical fitness Index
- 3.3 Cardiovascular test; Harvard step test
- 3.3 12 minutes run / walk test
- 3.5 Multi-stage fitness test (Beep test)

UNIT IV - Anthropometric and Aerobic-Anaerobic Tests

- 4.1 Physiological Testing: Aerobic Capacity: The Bruce Treadmill Test Protocol
- 4.2 1.5 Mile Run test for college male and female
- 4.3 Anaerobic Capacity: Margaria Kalamon Power test.
- 4.4 Anthropometric Measurements: Measuring Height: Standing Height, Sitting Height.
- 4.5 Measuring Circumference: Arm, Waist, Hip, Thigh and Calf.

UNIT V -Skill Tests

- 5.1 Specific Spots Skill Test: Badminton: Poole Long Test. Basketball: Harrison Basketball Ability Test
- 5.2 Hockey: Henry Friedel Field Hockey Test
- 5.3 Volleyball: Russel Lange Volleyball Test
- 5.4 Football: Mor-Christian General Soccer Ability Skill Test Battery, Johnson Soccer Test
- 5.5 Tennis: Hewitt Tennis Test.

Note: Practicals of indoor and out-door tests be designed and arranged internally.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the principles of test, measurement and evaluation in physical education and sports and criteria for test selection	K1, K2, K3
CO 2	Organize the various motor fitness tests	K1, K2
CO 3	Demonstrate and experiment with the various physical fitness tests	K1, K2, K3
CO 4	Measure anthropometric and aerobic & anaerobic parameters by using standardized tests	K1, K2, K3
CO 5	Analyse the basic playing abilities in the game of Badminton, Basketball, Hockey, Volleyball, Football, and tennis	K1, K2, K3
K1 - Understand		K2 - Apply
K3 - Analyse

ABILITY ENHANCEMENT COMPULSORY COURSE (AECC)

221AEC1 – PERSONALITY DEVELOPMENT & LIFE COPING SKILLS

Objectives : After studying this paper, the student teacher will be able:

1. To impart the basic ideas about personality development.
2. To know about self-esteem and self-confidence.
3. To impart the basic ideas about leadership qualities.
4. To know about conflict management.
5. To frame the concepts of Time Management and Performance appraisal.

Unit-I Definition and basics of personality

- 1.1 Analyzing strength and weakness
- 1.2 Theories on personality development
- 1.3 Increasing vocabulary

Unit-II Building self – esteem and self confidence

- 2.1 Working on attitudes – aggressive, assertive and submissive
- 2.2 Body language

Unit-III Introduction to leadership, leadership styles

- 3.1 Group dynamics and team building
- 3.2 Preparation for self introduction

Unit-IV Conflict management

- 4.1 Introduction
- 4.2 Levels of conflict
- 4.3 Managing conflict
- 4.4 Stress Management
- 4.5 Causes, Impact & Managing Stress

Unit-V Time management

- 5.1 Concept of time management
- 5.2 Need and importance
- 5.3 Steps towards better time management
- 5.4 Performance Appraisal, Self introduction
- 5.5 Group discussion, Impromptu

Course Outcomes:

- Understand personality and its theories.
- Know working attitudes, body language, leadership and styles.
- Understand conflict and time management.

Influence: The psychology of persuasion Revised edition – Dr. Robert Cialdine 2014.

221AEC2 -MANAGEMENT OF HYPOKINETIC DISEASES

Objectives: After completing this course, the students will be able to

1. Knowing the Hypo kinetic Diseases
2. Knowing the Obesity and Osteoporosis and its Management
3. Knowing the Hypertension and its Management
4. Knowing the Stroke and its Management
5. Knowing the Diabetes and its Management

Unit – I Hypo kinetic Diseases:

- 1.1 Meaning of Hypo kinetic Diseases
- 1.2 Causes for Hypo kinetic Diseases: List of Hypo kinetic Diseases,
- 1.3 Atherosclerosis: Meaning - Causes – Complications - Preventive measures
- 1.4 Managements of atherosclerosis disease: Physical activities, Yogic practices - Diet.

Unit – II Obesity and Osteoporosis:

- 2.1 Obesity: Meaning - Causes – Complications - Preventive measures
- 2.2 Managements of Obesity: Physical activities - Yogic practices - Diet.
- 2.3 Osteoporosis: Meaning - Causes – Complications - Preventive measures -
- 2.4 Managements of Osteoporosis: Physical activities - Yogic practices - Diet.

Unit – III Hypertension:

- 3.1 Meaning - Causes – Complications - Preventive measures -
- 3.2 Managements of Hypertension: Physical activities - Yogic practices - Diet.

Unit – IV Stroke:

- 4.1 Stroke: Meaning - Causes – Complications - Preventive measures
- 4.2 Managements of Stroke: Physical activities - Yogic practices - Diet.

Unit – V Diabetes:

- 5.1 Diabetes: Meaning – Types - Causes – Complications - Preventive measures
- 5.2 Managements of Diabetes: Physical activities - Yogic practices - Diet.

Course Outcomes

- Understand the Hypo kinetic Diseases.
- Understand the Obesity and Osteoporosis and its Management.
- Understand the Hypertension and its Management.
- Understand the Stroke and its Management.
- Understand the Diabetes and its Management.

SECOND SEMESTER - THEORY COURSES

222MCC1- APPLIED STATISTICS IN PHYSICAL EDUCATION & SPORTS

Objectives: After studying this paper the student teachers will be able:

1. To understand the basics of statistics.
2. To know the Data Classification, Tabulation and Measures of Central Tendency.
3. To know measures of Dispersions and Scales.
4. To know about probability distributions & groups.
5. To understand about inferential & Comparative statistics.

UNIT I - Introduction

- 1.1 Meaning and Definition of Statistics.
- 1.2 Function, need and importance of Statistics.
- 1.3 Types of Statistics. Meaning of the terms, Population, Sample, Data, types of data.
- 1.4 Variables: Discrete, Continuous.
- 1.5 Parametric and non-parametric statistics.

UNIT II - Data Classification, Tabulation and Measures of Central Tendency

- 2.1 Meaning, uses and construction of frequency table.
- 2.2 Measures of central tendency: Meaning and Purpose.
- 2.3 Calculation of Measures central tendency
- 2.4 Advantages of Measures of central tendency
- 2.5 Mean, median and mode.

UNIT III - Measures of Dispersions and Scales

- 3.1 Meaning, Purpose, Calculation and advantages of Range,
- 3.2 Quartile Deviation, Mean Deviation, Standard Deviation and Probable Error.
- 3.3 Meaning, Purpose, Calculation
- 3.4 Advantages of scoring scales;
- 3.5 6 sigma scale, Z Scale, Hull scale

UNIT IV - Probability Distributions and Graphs

- 4.1 Normal Curve. Meaning of probability
- 4.2 Principles of normal curve - Properties of normal curve
- 4.3 Divergence from normality - Skewness and Kurtosis. Graphical Representation in Statistics

- 4.4 Line diagram, Bar diagram, Histogram
 4.5 Frequency Polygon, Ogive Curve.

UNIT V - Inferential and Comparative Statistics

- 5.1 Tests of significance; Independent “t” test, Dependent “t” test
 5.2 level of confidence and interpretation of data
 5.3 Meaning of correlation - co-efficient of correlation
 5.4 calculation of co-efficient of correlation by the Pearson product moment correlation.
 5.5 Spearman rank order correlation.

Note : It is recommended that the theory topics be accompanied with practical, based on computer software of statistics.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the need and importance of statistics in physical education and sports	K1, K2
CO 2	Calculate and explain the measures of central tendency	K1, K2
CO 3	Calculate and explain the measures of dispersions and scales	K1, K2, K3
CO 4	Draw a various graph and explain about normal curve	K1, K2, K3
CO 5	Illustrate inferential and comparative statistics	K1, K2, K3
K1 - Understand		K2 - Apply
K3 - Analyse		

Mapping with Course Outcomes and Programme Outcomes

222MCC2 - SPORTS BIOMECHANICS & KINESIOLOGY (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basics of Sports biomechanics & kinesiology.
2. To understand the muscle action.
3. To know the concept of Motion and Force.
4. To know the concept of Projectile and Lever
5. To know about Movement Analysis.

UNIT I - Introduction

- 1.1 Meaning, nature, role and scope of Applied kinesiology
- 1.2 Meaning, nature, role and scope of Sports Biomechanics
- 1.3 Dynamics, Kinematics, Kinetics, Statics
- 1.4 Centre of gravity -Line of gravity
- 1.5 Plane of the body and axis of motion

UNIT II - Muscle Action

- 2.1 Origin, Insertion and action of muscles: Pectoralis major and minor, Deltoid, Biceps
- 2.2 Origin, Insertion and action of muscles: Triceps Trapezius, serratus, (Anterior and Posterior)
- 2.3 Origin, Insertion and action of muscles: Sartorius, Rectus, Abdominis, Quadriceps
- 2.4 Origin, Insertion and action of muscles: Hamstring & Gluteus
- 2.5 Origin, Insertion and action of muscles: Psoas and Gastrocnemius.

UNIT III - Motion and Force

- 3.1 Meaning and definition of Motion
- 3.2 Types of Motion: Linear motion, angular motion, circular motion, uniform motion
- 3.3 Principles related to the law of Inertia, Law of acceleration, and law of counter force
- 3.4 Meaning and definition of force- Sources of force -Force components
- 3.5 Force applied at an angle - pressure -friction -Buoyancy, Spin - Centripetal force - Centrifugal force.

UNIT IV - Projectile and Lever

- 4.1 Freely falling bodies - Projectiles -Equation of projectiles
- 4.2 Stability- Factors influencing equilibrium - Guiding principles for stability
- 4.3 Static and dynamic stability
- 4.4 Meaning of work, power, energy, kinetic energy and potential energy

- 4.5 Leverage -classes of lever - practical application. Water resistance - Air resistance -Aerodynamics.

UNIT V - Movement Analysis

Biomechanical and kinesiological analysis for the following functional movements in various sports and games.

- 5.1 Walking, Jogging and running
- 5.2 Spirting, kicking and hitting
- 5.3 Throwing, Catching and jumping
- 5.4 Balancing and hopping
- 5.5 Lunging and striking.

Note: Laboratory practicals should be designed and arranged for students internally.

Course Outcomes:

Expected Course Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the importance of biomechanics & kinesiology in physical education, kinetics, kinematics and centre of gravity with appropriate sports examples	K1, K2
CO 2	Draw a diagram of various muscles with origin, insertion and actions	K1, K2
CO 3	Facilitate motion, Newton's laws of motion, force and spin with suitable sports examples	K1, K2, K3
CO 4	Interpret the mechanical concepts of projectile and lever during sports movements	K1, K2, K3
CO 5	Analyse biomechanical and kinesiological principles during execute the skills in various sports activities	K1, K2, K3,
K1 - Understand		K2 - Apply
K3 - Analyse

222MCC3 - ATHLETIC CARE AND REHABILITATION (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basics & Sports injuries.
2. To know about Wound, Hydrotherapy & Electrotherapy.
3. To understand massage techniques & effects.
4. To know about exercises and approaches.
5. To understand about protective equipments & Posture.

Unit I: Sports injuries:

- 1.1 Definition, Meaning, importance of sports medicine
- 1.2 Sports Injuries: Causes – classification – prevention
- 1.3 First aid: Definition – general first aid procedure (RICER, PRICER therapy)
- 1.4 Acute – sub acute – chronic injuries
- 1.5 Dressing – bandages – types of bandages and its application.

Unit II: Wounds, Hydrotherapy and Electrotherapy

- 2.1 Wound – classification – basic sports injuries (terminologies)
- 2.2 Care and treatment of exposed and unexposed injuries
- 2.3 Hydrotherapy: – definition – types – thermotherapy – Cryotherapy
- 2.4 Electrotherapy: definition – Indications and contra indications: - ultrasound therapy, IFT, Electrical Muscle Stimulator

Unit III: Massage

- 3.1 Massage – definition – points to be considered
- 3.2 Physiological and psychological effects of massage
- 3.3 Classification of Massage – Meaning, and application of stroking manipulation – pressure manipulation
- 3.4 Meaning and application of percussion manipulation - shaking manipulation.

Unit IV: Rehabilitation I

- 4.1 Definition, meaning, principles: active exercises – passive exercises
- 4.2 Stretching: definition – types – PNF stretching
- 4.3 Manual muscle grading – Assisted Resisted exercises
- 4.4 Supporting and Aiding Techniques: upper limb – lower limb – upper back
- 4.5 Supporting and Aiding Techniques: lower back – chest – abdomen.

Unit V: Rehabilitation II

- 5.1 Protective equipments: classification of sports specific equipments

- 5.2 Principles and procedure of therapeutic exercises: coordination exercises – balance exercises
- 5.3 Principles and procedure of strengthening exercises - gait training
- 5.4 Principles and procedure of medicine ball exercises – swizz ball exercises
- 5.5 Posture: definition – deviations in posture – causes – exercises.
Note: Submission of physiotherapy record, lab practical and visit to physiotherapy centre. Observation injury management (assessed internally)

Course Outcomes:

Expected Course Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Outline the basic concepts of sports medicine, rehabilitation and injuries	K1, K2
CO 2	Explain the advantages of hydrotherapy and electrotherapy	K1, K2, K3
CO 3	Relate the importance of massage for the sports persons and demonstrate various massages	K1, K2, K3
CO 4	Manage first aid for sports injuries and use various bandages for different injuries	K1, K2, K3
CO 5	Facilitate various therapeutic exercises and stretching exercises for rehabilitation	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

DISCIPLINE SPECIFIC ELECTIVE COURSE

(Student shall select any one course out of four in First Semester and any one course out of three in Second Semester (Leaving the course selected in first semester))

221MECA/222MECA - ADAPTED PHYSICAL EDUCATION (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basics of Adapted Physical Education.
2. To understand the Adapted Physical Education Program.
3. To understand the Classification of disability.
4. To know the Adapted Facilities and equipments.
5. To understand the basic physical fitness and motor development.

UNIT I : Introduction to Adapted Physical Education:

- 1.1 Definition, aim and objectives of adapted physical education
- 1.2 Definition of Disabling Conditions - Physical Education for Persons with Disabilities
- 1.3 Benefits of Physical Education for persons with Disabilities
- 1.4 Recreational Sports Opportunities, Competition Opportunities
- 1.5 Special Olympics, Paralympics and Deaflympics.

UNIT II: Adapted Physical Education Program:

- 2.1 Organization and Administration - Guiding Principles of Adapted Physical Education
- 2.2 Interaction with Regular Physical Education Personnel - Communication with Parents
- 2.3 Nature of the Home Program, Parents as Teachers, Parent Involvement, Parent - Teacher Association, Parent Advisory Committee
- 2.4 Interpreting the Program, Unified Sports - models – recreation
- 2.5 Player development and competition.

UNIT III: Classification of Disability:

- 3.1 Visual impairment – hearing impairment - neuromuscular impairment
- 3.2 Orthopaedic impairment - cardiovascular impairment and respiratory impairment
- 3.3 Intellectual impairment and emotional impairment
- 3.4 Adapted Physical Education Activities and Specific Guidelines: Visual Impairment, Hearing Impairment

- 3.5 Adapted Physical Education Activities and Specific Guidelines: Intellectually challenged, Orthopedically Handicapped.

UNIT IV: Facilities and Equipments:

- 4.1 Orientation on Facilities and Equipments
 4.2 Facilities for Elementary Schools, Secondary Schools and Colleges
 4.3 Types of Equipments - Minimum equipment, Additional Equipment
 4.4 Evaluation Equipment facilities - Leisure, Recreation and Sports Facilities for persons with disabilities.

UNIT V: Physical Fitness and Motor Development:

- 5.1 Definition - Physical fitness, motor fitness
 5.2 Values of Physical Fitness - Physical Fitness through Life Long Activity
 5.3 Factors Contributing to Poor Fitness - Evaluating Physical and Motor Fitness
 5.5 Types of Physical Fitness Tests - Modification of the Physical Fitness Training System
 5.6 Selected Fitness Problems (Malnutrition and obesity)

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the concepts of adapted physical education and relationships with various competitions for Persons with Disabilities	K1, K2
CO 2	Describe the adapted physical education programme available of various disabilities	K1, K2
CO 3	Classify various disabilities and relate them with their adapted activities	K1, K2, K3
CO 4	Associate the necessary facilities and equipment to organize sports activities for persons with disabilities	K1, K2
CO 5	Discuss the importance of physical fitness and motor fitness for the persons with disabilities	K1, K2
K1 - Understand	K2 - Apply	K3 - Analyse

Mapping with Course Outcomes and Programme Outcomes

221MECB/222MECB - SPORTS TECHNOLOGY & SPORTS ENGINEERING (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basics of Sports technology.
2. To understand various playing surfaces.
3. To know the modern technology equipments.
4. To know the Training gadgets and its uses.
5. To understand the Sports building & Maintaining concepts.

Unit I - Sports Technology

- 1.1 Definition, purpose, Need and Importance
- 1.2 Benefits of Sports Technology: Technology and Athletic Performance
- 1.3 Technological Impacts on Sports
- 1.4 Use of Computer and Software in Match Analysis and Coaching.

Unit II - Surfaces of Playfields

- 2.1 Modern surfaces for playfields
- 2.2 Construction installation and Maintenance of Sports Surfaces
- 2.3 Types of Materials: Synthetic, Wood, Polyurethane and Artificial Turf
- 2.4 Modern Technology in the Construction of Indoor and Outdoor Facilities.

Unit III – Modern Technology Equipments

- 3.1 Playing Equipments: Balls: Types, Materials and Advantages
- 3.2 Playing Equipments: Bat/Stick/ Racquets: Types, Materials and Advantages
- 3.3 Clothing and shoes: Types, Materials and Advantages
- 3.4 Measuring Equipments: Throwing and Jumping Events. Protective Equipments: Types, Materials and Advantages
- 3.5 Sports Equipments with Nano Technology and its Advantages.

Unit IV - Features and Advantages of Training Gadgets

- 4.1 Badminton: Ball Feeder, Cricket: Bowling Machine,
- 4.2 Tennis: Tennis Ball Feeding Machine,
- 4.3 Table Tennis: Table Tennis Ball Feeding Machine.
- 4.4 Lighting Facilities: Method of Erecting Flood Light and Luminous.
- 4.5 Video Coverage: Types, Size, Capacity, Place and Position of Camera in Live Coverage of Sporting Events.

Unit V – Building and Maintenance

- 5.1 Sports Infrastructure – Gymnasium, Pavilion, Swimming Pool, Indoor – Outdoor Stadium

- 5.2 Play Park – Academic Block, Administrative Block, Research Block, Library, Sports Hostels
- 5.3 Gates for Free Movement People – Fire Exit – Emergency Providing for Lighting Requirements
- 5.4 Air Ventilation, Day Light, Lighting Arrangement, Galleries, Store Rooms, Drinking Water
- 5.5 Sewage and Water Disposal System, Sound Systems – Echo Friendly and Disability Friendly.

Note: Students should be encouraged to design and manufacture improvised sports testing equipment in the laboratory/workshop and visit sports technology factory/ sports goods manufacturers.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the concepts of Sports Technology and Sports Engineering	K1, K2
CO 2	Describe the uses, construction and installation of playfields	K1, K2
CO 3	Classify various modern technology equipment and its advantages in sports	K1, K2, K3
CO 4	Explain the features and advantages of training gadgets	K1, K2
CO 5	Discuss the maintenance procedure of gymnasium, swimming pool and playgrounds	K1, K2
K1 - Understand		K2 - Apply
		K3 - Analyse

221MECC/222MECC - YOGIC SCIENCE (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To understand the concept of Yogasanas.
2. To know about asanas & pranayama.
3. To understand Kriyas.
4. To understand Mudras.
5. To know the concept of Yogic Therapy.

Unit I - Introduction

- 1.1 Meaning and Definition of Yoga. Astanga Yoga: Yama, Niyama, Asana, Pranayama, Prathyahara, Dharana, Dhyana, Samadhi
- 1.2 Concept of Yogic Practices; Principles of Breathing - Awareness – Relaxation
- 1.3 Sequence - Counter pose - Time - Place - Clothes – Bathing
- 1.4 Emptying the bowels - Stomach - Diet - No Straining – Age
- 1.5 Contra- Indication - Inverted asana - Sunbathing.

Unit II - Asanas and Pranayama

- 2.1 Loosening exercise: Techniques and benefits
- 2.2 Asanas: Types- Techniques and Benefits
- 2.3 Surya Namaskar: Methods and benefits
- 2.4 Pranayama: Types- Methods and benefits
- 2.5 Nadis: Meaning, methods and benefits, Chakras: Major Chakras and its location.

Unit III - Kriyas

- 3.1 Shat Kriyas- Meaning, Techniques
- 3.2 Benefits of Neti - Dhauti - Kapalpathi- Trataka - Nauli – Basti
- 3.3 Bandhas: Meaning, Techniques and Benefits
- 3.4 Jalendra Bandha, Jihva Bandha,
- 3.5 Uddiyana Bandha, Mula Bandha.

Unit IV - Mudras

- 4.1 Meaning and Benefits of Mudras
- 4.2 Techniques – Hasta Mudras, Asamyukta hastam, Samyukta hastam
- 4.3 Mana Mudra, Kaya Mudra
- 4.4 Meditation: Meaning and Benefits
- 4.5 Techniques: Passive and active, Saguna Meditation and Nirguna Meditation.

Unit V – Yogic Therapy

- 5.1 Yogic therapy –Concept of Yogic Therapy
- 5.2 Role of Yoga Therapist, Yoga Therapy for Arthritis – Diabetes

- 5.3 Yoga Therapy for Obesity – Constipation
 5.4 Yoga Therapy for Stress –Hyper and Hypo Tension
 5.5 Yoga Therapy for Asthma – Sinusitis.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the principles of eight limbs of yoga and indication and contra-indication of yoga	K1, K2,
CO 2	Describe the importance and procedures of asanas and pranayama	K1, K2
CO 3	Outline the benefits and procedures of kriyas and bandhas	K1, K2, K3
CO 4	Explain the benefits and procedures of mudras and meditation	K1, K2, K3
CO 5	Express the concept of yogic therapy for various illness	K1, K2, K3
K1 - Understand		K2 - Apply
		K3 - Analyse

Mapping with Course Outcomes and Programme Outcomes

221MECD/222MECD - SPORTS MANAGEMENT AND CURRICULUM DESIGN IN PHYSICAL EDUCATION (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To know the concept & Sports Management.
2. To understand Program Management.
3. To understand equipment & public relation.
4. To know the concept of curriculum.
5. To know the Curriculum Sources.

UNIT I - Introduction to Sports Management

- 1.1 Definition, Importance. Basic Principles and Procedures of Sports Management
- 1.2 Functions of Sports Management
- 1.3 Personal Management: Objectives of Personal Management, Personal Policies
- 1.4 Role of Personal Manager in an organization, Personnel recruitment and selection.

UNIT II - Program Management

- 2.1 Importance of Programme development and the role of management
- 2.2 Factors influencing programme development. Steps in programme development
- 2.3 Competitive Sports Programs, Benefits, Management Guidelines for School, Colleges Sports Programs
- 2.4 Management Problems in instruction programme
- 2.5 Community Based Physical Education and Sports program.

UNIT III - Equipments and Public Relation

- 3.1 Purchase and Care of Supplies of Equipment, Guidelines for selection of Equipments and Supplies
- 3.2 Purchase of equipments and supplies, Equipment Room, Equipment and supply Manager
- 3.3 Guidelines for checking, storing, issuing, care and maintenance of supplies and equipments
- 3.4 Public Relations in Sports: Planning the Public Relation Program - Principles of Public Relation
- 3.5 Public Relations in School and Communities - Public Relation and the Media.

UNIT IV - Curriculum

- 4.1 Meaning and Definition of Curriculum. Principles of Curriculum Construction
- 4.2 Students centred, Activity centred, Community centred, Forward looking principle
- 4.3 Principles of integration, Theories of curriculum development, Conservative (Preservation of Culture)
- 4.4 Relevance, flexibility, quality, contextually and plurality
- 4.5 Approaches to Curriculum; Subject centred, Learner centred and Community centred, Curriculum Framework.

UNIT V - Curriculum Sources

- 5.1 Factors that affecting curriculum: Sources of Curriculum materials - text books – Journals
- 5.2 Dictionaries, Encyclopaedias, Magazines, Internet
- 5.3 Integration of Physical Education with other Sports Sciences
- 5.4 Curriculum research, Objectives of Curriculum research - Importance of Curriculum research
- 5.5 Evaluation of Curriculum, Methods of evaluation.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Summarise the concept of sports management and establish event management in physical education and sports	K1, K2
CO 2	List out the sports management skills to organize the programme in educational institutions	K1, K2
CO 3	Procure quality equipment for various sports	K1, K2, K3
CO 4	Express the modern concepts of physical education curriculum	K1, K2
CO 5	Design an innovative physical education curriculum according to the student's participation	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

ABILITY ENHANCEMENT COMPULSORY COURSES (AECC)

222AEC1– LIFE SKILL MANAGEMENT

Learning Objective

1. To impart the basic ideas about personality development.
2. To impart the basic ideas about life coping skills
3. To frame the concepts of Goal Setting
4. To learn effective communication
5. To learn the cope with strategy and emotions

UNIT I

- 1.1 **Self-Awareness:** Self – character – strength – weakness – desires – dislikes.
- 1.2 **Empathy:** Successful relationship – pupil's desires and feelings – one way traffic communication – care and resistance.

UNIT II

- 2.1 **Critical Thinking:** Analyse information – experiences – attitudes and behaviours – values – peer pressure.
- 2.2 **Creative thinking:** Fluency (generating new ideas) – flexibility (shifting perspectives easily) – originality (conceiving of something new) – elaboration (building of other ideas).

UNIT III

- 3.1 **Decision Making:** Constructively making decisions – actions in relation to decision – effects of decision.
- 3.2 **Problem Solving:** Dealing with problems – unresolved mental stress – physical strain – coping ideas.

UNIT IV

- 4.1 **Effective Communication:** verbal and non-verbal communication – opinion and desires – needs and fears.
- 4.2 **Interpersonal Relationship:** Friendly relationships – thinking positively in relation to relationship – constructing relations.

UNIT V

- 5.1 **Coping with Stress:** Sources of stress – effects on individual – levels of stress and control of it.
- 5.2 **Coping with emotion:** sources of emotions – emotions and behaviours – anger and sadness – negative effects on health.- Handling the various types of accident situations.

Course Outcomes:

- Understand the concepts of self-awareness and its application in finding out strengths and weakness.
- To know the effects of thinking and its application in decision and problem solving aspects.
- Effects of stress and emotion, its attitude and cross effects with mind and body will be understood.

THIRD SEMESTER - THEORY COURSES

223MCC1- SCIENTIFIC PRINCIPLES OF SPORTS TRAINING (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To understand Sports Training Concept.
2. To know the Components of Physical fitness.
3. To understand Flexibilities.
4. To understand Training Plan.
5. To understand Coaching.

UNIT I - Introduction

- 1.1 Sports training: Definition - Aim, Characteristics
- 1.2 Principles of Sports Training
- 1.3 Over Load: Definition, Causes of Over Load, Symptoms of Overload
- Remedial Measures
- 1.4 Super Compensation
- 1.5 Altitude Training - Cross Training

UNIT II – Development of Fitness Components

- 2.1 Strength: Methods to improve Strength
- 2.2 Weight Training, Isometric, Isotonic, Isokinetic, Circuit Training
- 2.3 Speed: Methods to Develop Speed: Repetition Method, Downhill Run, Parachute Running, Wind Sprints
- 2.4 Endurance, Methods to Improve Endurance: Continuous Method, Interval Method, Repetition Method
- 2.5 Cross Country, Fartlek Training

UNIT III – Development of Fitness Components

- 3.1 Flexibility: Methods to Improve the Flexibility- Stretch and Hold Method, Ballistic Method, Hyper Mobility
- 3.2 Special Type Training: Plyometric Training. Training for Coordinative abilities
- 3.3 Methods to improve Coordinative abilities: Sensory Method, Variation in Movement Execution Method
- 3.4 Variation in External - Condition Method, Combination of Movement Method
- 3.5 Types of Stretching Exercises.

UNIT IV - Training Plan

- 4.1 Training Plan: Macro Cycle, Meso-Cycle
- 4.2 Short-term Plan and Long Term Plans

- 4.3 Periodisation: Meaning, Single, Double and Multiple Periodisation
 4.4 Preparatory Period, Competition Period and Transition Period.

UNIT V – Coaching

- 5.1 Identification of Talent: Pre-requisites and Conditions for Developing Talent
 5.2 Early Recognition – Screening and Selection with Performance Factors
 5.3 Specific Characteristics: Anthropometric – Physiological – Psychological
 5.4 Motor Development of Children

Course Outcomes:

Expected Course Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Facilitate the basics principles and importance of sports training for achieving highest performance	K1, K2
CO 2	Explain the concept of training components and means and methods of developing strength, speed and endurance	K1, K2, K3
CO 3	Explain the means and methods of developing flexibility, coordinative abilities	K1, K2, K3
CO 4	Illustrate the various training plans for different sports and games	K1, K2, K3
CO 5	Describe various types of training methods	K1, K2, K3,
K1 - Understand	K2 - Apply	K3 - Analyse

223MCC2 - RESEARCH PROCESSES IN PHYSICAL EDUCATION & SPORTS SCIENCES (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the basic concept of research.
2. To know about the methods of research.
3. To understand the experimental research.
4. To know sampling methods.
5. To understand writing research proposal and report.

UNIT I - Introduction

- 1.1 Meaning and Definition of Research
- 1.2 Need, Nature and Scope of research in Physical Education.
- 1.3 Classification of Research, Location of Research Problem
- 1.4 Criteria for selection of a problem
- 1.5 Qualities of a good researcher.

UNIT II - Methods of Research

- 2.1 Descriptive Methods of Research; Survey Study, Case study
- 2.2 Introduction of Historical Research
- 2.3 Steps in Historical Research
- 2.4 Sources of Historical Research: Primary Data and Secondary Data
- 2.5 Historical Criticism: Internal Criticism and External Criticism.

UNIT III - Experimental Design

- 3.1 Experimental Research - Meaning, Nature and Importance
- 3.2 Meaning of Variable, Types of Variables
- 3.3 Experimental Design - Single Group Design, Reverse Group Design
- 3.4 Repeated Measure Design, Static Group Comparison Design
- 3.5 Equated Group Design, Factorial Design.

UNIT IV - Sampling

- 4.1 Meaning and Definition of Sample and Population
- 4.2 Types of Sampling; Probability Methods; Systematic Sampling
- 4.3 Cluster Sampling, Stratified Sampling
- 4.4 Area Sampling - Multistage Sampling
- 4.5 Non- Probability Methods; Convenience Sample, Judgement Sampling, Quota Sampling.

UNIT V - Research Proposal and Report

- 5.1 Method of Writing Thesis / Dissertation Research proposal
- 5.2 Chapterization of Thesis/Dissertation, Front Materials, Body of Thesis - Back materials

- 5.3 Method of Writing Abstract and Full Paper for Presenting in a Conference and to Publish in Journals
- 5.4 Mechanics of Writing Research Report
- 5.5 Footnote and Bibliography Writing

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the need and importance of research in physical education and classify the research	K1, K2
CO 2	Differentiate the types of research and methods of research	K1, K2
CO 3	Classify the experimental design and variables	K1, K2, K3
CO 4	Define sampling technique and apply in thesis preparation	K1, K2, K3
CO 5	Prepare research proposal and report	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

Mapping with Course Outcomes and Programme Outcomes

GENERIC ELECTIVE COURSE

223MGE C1 - INDIAN CULTURAL HERITAGE

OBJECTIVES: After studying this paper the student teachers will be able to:

1. Know about Indian Culture and its relevance to modern life.
2. Enable the students to know about the philosophical thoughts of India.
3. Inculcate certain basic values in the minds of students who are considered to be the pillars of modern India.
4. Motivate the students to follow the footprints of the great leaders and saints of India.
5. Lay the strong foundation for developing the personality of the younger generation by giving exposure to Indian Arts, Science and Technology.

Unit – I: The Philosophical thoughts of India: The Pursuit of human life - Purusartha - Four Ashramas (Stages) - Brahmacharya (Student) - Grihastha (House holder) – Vanaprastha(Retired) - Sanyasa (Renunciate) - Three Gunas and their special qualities or characteristics - Sattva (Light, bliss, goodness) - Rajas (Passion, Motion) - Tamas (Inertia, Darkness) - The Indian Yogic diet - Sattvic Diet -Rajasic Diet -Tamasic Diet- Scientific approach to personality development in India.

Unit – II: Shastras of India Vedangas: Vyakarana -Grammar, Jyothishya –Astrology, Nirukta – Etymology, Chanda – Prosody, Shiksha - Study of sound and pronunciation, Kalpa- Science of Sacrifice,Prasthanatrayam - The Upanishads - The Brahma Sutras - The Bhagavad Gita – Epics - The Ramayana -The Mahabharata

Unit – III: Ramakrishna Movement: The life and message of Ramakrishna Paramahansa - The life and message of Sarada Devi, the Holy Mother - The life and message of Swami Vivekananda and his contribution to National - awakening and National integration - Ramakrishna Math and Mission - Aims and Objectives of the Mission - Its various kinds of services - Ideals of the math - Its unique features - Its Symbol.

Unit – IV: The History of Freedom Movement in India: An Introduction to the Freedom movement - The Indian National Army - Quit India Movement - Vande Mataram – Historical importance - Freedom Fighters - Bankim Chandra Chatterjee - Subramaniya Siva - Velu Natchiyar - Sardar Vallabhai Patel - Lala Lajapat Rai

Unit – V: The Traditional Educational System of India: An Introduction

- The important features of education - Education in view of Swami Vivekananda - Education for National Integration - Education for promoting Spirituality - Do your duty - Promoting patriotism through Education - Developing moral, ethical, social and spiritual values through education - Indians Contribution to Sciences - Architecture and Urban development – Botany - Physics and Chemistry - Army Strategy - Veterinary Medicine - Indian Medicine and Surgery.

COURSE OUTCOMES:

1. By learning about the Cultural Heritage of India, the younger generation have a scope to develop their personality as worthy leaders of modern India since culture lends support to man's personality.
2. The learners have an opportunity to know about the Shastras of India by which they may give proper shape to their personality.
3. The youngsters enable themselves to follow the footprints of the great leaders and saints of India and may come forward to serve the country with optimistic attitude and broad outlook.
4. The youngsters have a scope to improve and dedicate themselves to guide others particularly youth to walk on the right path by following the laws of the land as well as the laws of Nature.
5. The youngsters will be knowledgeable persons by knowing about Indian culture and tradition, apart from gaining knowledge of science and technology.

GENERIC ELECTIVE COURSE

223MGEC2 – VALUE AND ENVIRONMENTAL EDUCATION

Objectives: After studying this paper the student teachers will be able:

1. To know the Introduction to Value education.
2. To understand the value systems.
3. To understand the concept, historical background and the evolution of environmental education an Indian perspective.
4. To understand the improvement of rural sanitation and urban health problems.
5. To know the natural government policies and role of the pollution control board on environmental issues.

UNIT I - Introduction to Value Education

- 1.1 Values: Meaning, Definition
- 1.2 Value Education: Need and Importance
- 1.3 Moral Values: Definition and Need
- 1.4 Theories of Values
- 1.5 Classification of Values.

UNIT II - Value Systems

- 2.1 Meaning and Definition
- 2.2 Personal and Communal Values
- 2.3 Consistent and Inconsistent
- 2.4 Judging Value System
- 2.5 Commitment, Commitment to values.

Unit- III - Environmental Education

- 3.1 Definition, Need and Importance of environmental education
- 3.2 Historical background of environmental education
- 3.3 Celebration of various days in relation with environment
- 3.4 Plastic recycling & prohibition of plastic bag / cover, Role of educational institutions in environmental conservation and sustainable development
- 3.5 Pollution free ecosystem.

Unit IV - Rural Sanitation and Urban Health

- 4.1 Rural Health Problems, Causes of Rural Health Problems
- 4.2 Points to be kept in Mind for improvement of Rural Sanitation
- 4.3 Urban Health Problems, Process of Urban Health

- 4.4 Suggested Education Activity, Services on Urban Slum Area
 4.5 Sanitation at Fairs & Festivals, Mass Education.

Unit V - Natural Resources and related environmental issues:

- 5.1 Water resources, food resources and Land resources
 5.2 Definition, effects and control measures of Air Pollution, Water Pollution
 5.3 Definition, effects and control measures of Soil Pollution, Noise Pollution, Thermal Pollution
 5.4 Management of environment and Govt. policies
 5.5 Role of pollution control board.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Summarize the concepts of value education and moral values and its theories	K1, K2
CO 2	Classify various value systems namely personal and communal values	K1, K2
CO 3	Define environmental education and explain the role of school in environmental conservation and sustainable development.	K1, K2, K3
CO 4	Discuss the rural health problems and sanitation and mass education	K1, K2
CO 5	Enumerate the effect and control of pollution and interpret the role of the pollution control board	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

SKILL ENHANCEMENT COURSES

223SEC1 - SOFTWARE BASED STATISTICAL APPLICATION IN PHYSICAL EDUCATION

Learning Objectives: After studying this paper the student teachers will be able:

1. To know the basics of Software in Statistics (MS-Excel and SPSS).
2. To understand about Measures of Central Tendency and computation through MS-Excel and SPSS.
3. To know the measures of dispersions and its calculation through Software.
4. To understand about correlation and its computation through SPSS.
5. To know 't'-test and ANOVA and its calculations through MS-Excel and SPSS.

UNIT I - Introduction to Software in Statistics

- 1.1 Benefits of Software in Statistics
- 1.2 Introduction and Basic Arithmetical Operation in MS Excel
- 1.3 Introduction to the basics of SPSS.

UNIT II - Measures of Central Tendency

- 2.1 Mean, Median and Mode
- 2.2 Computation of Mean, Median and Mode through MS Excel
- 2.3 Computation of Mean, Median and Mode through SPSS.

UNIT III - Measures of Dispersion

- 3.1 Range – Mean Deviation- Quartile Deviation- Standard Deviation
- 3.2 Computation of Standard Deviation through MS Excel
- 3.3 Computation of Standard Deviation through SPSS.

UNIT IV - Correlation:

- 4.1 Pearson Product Moment Correlation
- 4.2 Spearman Rank order Correlation
- 4.3 Computation of Pearson Product Moment Correlation
- 4.4 Spearman Rank order Correlation through SPSS .

UNIT V - Comparison of Mean:

- 5.1 Independent 't' Test - Dependent 't' Test – ANOVA
- 5.2 Computation of Independent 't' Test - Dependent 't' Test - ANOVA through MS-EXCEL
- 5.3 Computation of Independent 't' Test - Dependent 't' Test - ANOVA through SPSS.

Course Outcomes:

The Students able to understand software in statistics, procedures of computing measures of central tendency, measures of dispersion, correlation and comparison of mean through statistical software.

SKILL ENHANCEMENT COURSES

223SEC2 - MANAGEMENT OF TRAINING GADGETS

Objectives: After completing this course, the students will be able

1. To understand basic operation of tennis ball feeding robot.
2. To know the setting for various spin and flat ball.
3. To know the mechanism of table tennis robot.
4. To know the mechanism of badminton robot.
5. To know the mechanism of cricket bowling machine.

Unit-I Tennis Ball Feeding Robot

Power on / off, Elevation (Height Adjustment- low / high), Vertical (Fixed vertical velocity), Horizontal (Fixed horizontal velocity), Remote - on / off, Feed- 12,10, 08, 06, (04, 02-Red zone), Speed- 10, 20, 30, 40, 50, (60, 70, 80- Red zone), charger- (Direct power / indirect power).

Unit-II Tennis Ball Feeding Robot

Spin- Flat-0, Under spin: -1, -2, -3, -4, Top spin: +1, +2, +3, +4, Battery Status: low battery, charged or charging indicator. Remote: Feed- Start / Stop, Sweep- 2 line ball start / stop.

Unit- III Table Tennis Robot

Ball Speed: 1-10, Ball frequency: 1-10 (Between the ball), Oscillator Speed: 1-10 (to adjust the different direction and spot), Four Types of spin: Top spin, Back spin, Right spin and Left spin.

Unit-IV Badminton Robot

Speed, Height / Pause (lift model), frequency, Lop (Adjust the ball height), Angle (Adjust the Cock direction- Right or Left), Fixed course, Alternative course.

Unit- V Cricket Bowling Machine

Start, Run, Reset, Program setting, Individual wheel speed Adjustment, Movable stand leverage, In swing, Out swing, Straight delivery, Spin: Off spin, Leg spin, Googly, Doosra, Line and length adjustment, Ball feeding hook, Speed: 0-170 km/hour.

Course Outcomes:

- Understand the basic operation of tennis ball feeding robot.
- Understand the operation of table tennis robot.
- Understand the operation of badminton robot.
- Understand the operation of cricket bowling machine.

FOURTH SEMESTER - THEORY COURSES

224MCC1 - INFORMATION & COMMUNICATION TECHNOLOGY (ICT) AND EDUCATION TECHNOLOGY IN PHYSICAL EDUCATION (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To understand the concept of Communication & Classroom interaction.
2. To know the fundamental of Computers.
3. To know MS-Office & E-Learning concepts.
4. To know the Nature and Scope of Educational technology.
5. To understand the Instructional design.

Unit I – Communication & Classroom Interaction

- 1.1 Concept, Elements, Process & Types of Communication, Communication Barriers & Facilitators of communication
- 1.2 Communicative skills of English - Listening, Speaking, Reading & Writing
- 1.3 Concept & Importance of ICT Need of ICT in Education
- 1.4 Scope of ICT: Teaching Learning Process, Publication Evaluation, Research and Administration
- 1.5 Challenges in Integrating ICT in Physical Education

Unit II – Fundamentals of Computers

- 2.1 Characteristics, Types & Applications of Computers Hardware of Computer: Input, Output & Storage Devices Software of Computer: Concept & Types
- 2.2 Computer Memory: Concept & Types
- 2.3 Viruses and its Management: Concept, Types
- 2.4 Functions of Computer Networks: Internet and its Applications, Web Browsers & Search Engines Legal & Ethical Issues

Unit III – MS Office Applications & E-Learning

- 3.1 MS Word: Main Features and its Uses in Physical Education
- 3.2 MS Excel: Main Features and its Applications in Physical Education
- 3.3 MS Access: Creating a Database, Creating a Table, Queries, Forms & Reports on Tables and its Uses in Physical Education – GMS (Games Management System)
- 3.4 MS Power Point: Preparation of Slides with Multimedia Effects
- 3.5 E-Learning

Unit IV – Nature and Scope

- 4.1 Educational technology-concept, Nature and Scope.
- 4.2 Forms of educational technology: teaching technology, instructional technology, and behaviour technology
- 4.3 Transactional usage of educational technology: integrated, complementary, supplementary stand- alone (independent)
- 4.4 Programmed learning stage; media application stage and computer application stage.

Unit V - Instructional Design

- 5.1 Instructional Design: Concept, Views. Process and stages of Development of Instructional – Design
- 5.2 Audio- visual media - meaning, importance and various forms Audio/ Radio
- 5.3 Broadcast and audio recordings - strengths and Limitations
- 5.4 Audio Conferencing, Use of Television and CCTV in instruction and Training
- 5.5 Video Conferencing

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Discuss the concept of ICT and explain the challenges of ICT in physical education and sports	K1, K2
CO 2	Discuss the fundamentals of computers, memory and virus management	K1, K2
CO 3	Use Microsoft application and Utilize e-sources and software in the field of physical education	K1, K2
CO 4	Explain the nature and scope of Educational Technology	K1, K2
CO 5	Enumerate the functions and uses of audio-video materials, broadcast and video conferencing	K1, K2
K1 - Understand	K2 - Apply	K3 - Analyse

Mapping with Course Outcomes and Programme Outcomes

COs	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PSO 11	PSO 12	PSO 13
CO 1	L	L	L	L	L	L	L	L	L	L	L	L	L
CO 2	L	L	L	L	L	L	L	L	L	L	L	L	L

224MCC2 - THEORIES OF TRACK AND FIELD (CORE)

Objectives: After studying this paper the student teachers will be able:

1. To know the Planning, Construction, Marking of 4x100 m, 4x400 m.
2. To know the duties of various officials.
3. To know the rules and interpretations of Track events.
4. To know the rules and interpretations of Throwing and Combined Events.
5. To know the rules and interpretations of Jumping Events.

UNIT I : Planning, Construction and Marking of Standard and Non-Standard Track (200m, 400m):

- 1.1 Computation of RDR and CDR
- 1.2 Stagger Distance and Diagonal Excess
- 1.3 Marking of Relays (4x100 m, 4x400 m)
- 1.4 Starting for all Track Events. Arc Start, Group Start
- 1.5 Staggered Start.

UNIT II : Duties of Officials:

- 2.1 Duties of Management Officials
- 2.2 Duties of Competition Officials - Additional Officials
- 2.3 Officials and their Duties for Track Events
- 2.4 Field Events and Combined Events
- 2.5 World Athletics (WA), Tamil Nadu Athletic Association (TNAA).

UNIT III: Track Events, Rules and their Interpretations of Track Events:

- 3.1 Sprint, Middle and Long Distance Events 100m, 200m, 400m,
- 3.2 110m Hurdles 100m Hurdles
- 3.3 Relays, 800m, 1500m
- 3.4 3000m, 5000m, 10000m
- 3.5 Marathon Race

UNIT IV: Marking, Rules and their Interpretations of Throwing and Combined Events:

- 4.1 Throwing Events: Shot put
- 4.2 Throwing Events: Discus
- 4.3 Throwing Events: Javelin
- 4.4 Throwing Events: Hammer Throw
- 4.5 Combined Events: Heptathlon and Decathlon

UNIT V: Marking, Rules and their Interpretations of Jumping Events:

- 5.1 Jumping Events - Long Jump
- 5.2 Jumping Events -High Jump
- 5.3 Jumping Events -Triple Jump

5.4 Jumping Events -Pole Vault

5.5 Records of all Events in National and International Level

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Draw athletics track and interpret the rules and regulations of selected track events	K1, K2, K3
CO 2	Discuss the duties of various officials in track and field events	K1, K2, K3
CO 3	Explain the rules and the interpretation of track events	K1, K2, K3
CO 4	Draw the throwing events arena and interpret the rules and regulations of selected field events	K1, K2, K3
CO 5	Draw the jumping events arena and interpret the rules and regulations of selected field events	K1, K2, K3
K1 - Understand	K2 - Apply	K3 - Analyse

DISCIPLINE SPECIFIC ELECTIVE COURSE

(Student shall select any one course out of four in Third Semester and any one course out of three in Fourth Semester (Leaving the course selected in third semester))

223MECA/224MECA - HEALTH EDUCATION AND SPORTS NUTRITION (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To understand health education concepts.
2. To know the health problems in India.
3. To understand about hygiene and health.
4. To know the introduction of Sports nutrition.
5. To know Nutrition and Weight Management relations.

Unit - I Health Education

- 1.1 Concept, Dimensions, Spectrum and Determinants of Health
- 1.2 Definition of Health, Health Education, Health Instruction
- 1.3 Health Supervision, Aim, objectives
- 1.4 Principles of Health Education
- 1.5 Health Service and guidance instruction in personal hygiene

Unit - II Health Problems in India

- 2.1 Communicable and Non Communicable Diseases Obesity, Malnutrition
- 2.2 Adulteration in food, Environmental sanitation, Explosive, Population, Personal and Environmental Hygiene for schools
- 2.3 Objective of school health service, Role of health education in schools Health Services
- 2.4 Care of skin, Nails, Eye health service, Nutritional service, Health appraisal, Health record
- 2.5 Healthful school environment, first- aid and emergency care etc.

Unit- III - Hygiene and Health

- 3.1 Meaning of Hygiene, Type of Hygiene
- 3.2 Dental Hygiene, Effect of Alcohol on Health
- 3.3 Effect of Tobacco on Health
- 3.4 Life Style Management, Management of Hypertension
- 3.5 Management of Obesity, Management of Stress

Unit - IV- Introduction to Sports Nutrition

- 4.1 Meaning and Definition of Sports Nutrition, Role of nutrition in sports
- 4.2 Basic Nutrition guidelines
- 4.3 Nutrients: Ingestion to energy metabolism (Carbohydrate, Protein and Fat)
- 4.4 Role of carbohydrates and Fat during exercise.
- 4.5 Role of protein during exercise.

Unit - V- Nutrition and Weight Management

- 5.1 Concept of BMI (Body mass index), Obesity and its hazards
- 5.2 Dieting versus exercise for weight control - Maintaining a Healthy Lifestyle
- 5.3 Weight management program for sporty child
- 5.4 Role of diet and exercise in weight management
- 5.5 Design diet plan and exercise schedule for weight gain and loss.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Summarize the concepts of health education and organize health service	K1, K2
CO 2	Classify communicable and non-communicable diseases and apply principles of personal & environmental hygiene in schools	K1, K2
CO 3	Explain the personal hygiene, and life style management and Management of obesity	K1, K2, K3
CO 4	Define sports nutrition and explain the guidelines of nutrients	K1, K2
CO 5	Enumerate the concept of BMI, diet plan and weight management	K1, K2, K3
K1 - Understand		K2 - Apply
		K3 - Analyse

223MECB/224MECB - PHYSICAL FITNESS AND WELLNESS (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To know the introduction of Physical fitness.
2. To know nutrition for fitness.
3. To understand about Aerobic exercise.
4. To understand about Anaerobic exercise.
5. To understand about Flexibility exercise.

Unit I - Introduction

- 1.1 Meaning and Definition" of Physical Fitness, Physical Fitness Concepts and Techniques.
- 1.2 Principles of physical fitness, Physiological principles involved in human movement. Components of Physical Fitness.
- 1.3 Values of physical fitness.
- 1.4 Current trends in fitness and conditioning.
- 1.5 Components of total health and fitness.

Unit II - Wellness

- 2.1 Meaning and definition of wellness.
- 2.2 Components and benefits of wellness.
- 2.3 Weight Management.
- 2.4 Proper practices to maintain, lose and gain weight.
- 2.5 Relationship between physical activity and lifelong wellness.

Unit III - Aerobic Exercise

- 3.1 Meaning and definition and benefits of aerobic exercises, Cardio respiratory Endurance Training; proper movement forms, i.e., correct stride, arm movements, body alignment
- 3.2 Proper warm-up, cool down, and stretching, monitoring heart rates during activity
- 3.3 Assessment of cardio respiratory fitness and set goals to maintain or improve fitness levels
- 3.4 Cardio respiratory activities including i.e. power walking, pacer test, interval training, incline running
- 3.5 Distance running, aerobics and circuits.

Unit IV - Anaerobic Exercise

- 4.1 Resistance Training for Muscular Strength and Endurance; principles of resistance training
- 4.2 Safety techniques (spotting, proper body alignment, lifting techniques, spatial, awareness and proper breathing techniques)

- 4.3 Weight training principles and concepts;
- 4.4 Basic resistance exercises (including free hand exercise, free weight exercise, weight machines)
- 4.5 Exercise bands and tubing, medicine balls, fit balls. Advanced techniques of weight training

Unit V - Modern Life Style Challenges

- 5.1 Cholesterol, Cancer.
- 5.2 High and low Blood Pressure.
- 5.3 Addictions of alcohol, tobacco, habits.
- 5.4 Diabetes, Osteoporosis.
- 5.5 Obesity.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Describe the components and principles of physical fitness and explain the current trends in fitness and conditioning	K1, K2,
CO 2	Explain the components and benefits of wellness and weight management	K1, K2
CO 3	Discuss the benefits and assessment of aerobic capacity	K1, K2
CO 4	Explain the benefits and assessment of anaerobic quality	K1, K2, K3
CO 5	Discuss about the modern life style challenges like cholesterol and cancer	K1, K2, K3
K1 - Understand		K2 - Apply
		K3 - Analyse

223MECC/224MECC - SPECIAL OLYMPICS (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To understand the foundation of Special Olympics.
2. To understand the eligibility for participation in Special Olympics.
3. To know the divisioning in Special Olympics.
4. To understand about Special Olympics volunteers and Coaching Special Athletes.
5. To know the sports specific coaching.

UNIT I: Foundation of Special Olympics

- 1.1 Mission of special Olympics
- 1.2 Operating Policies in Special Olympics
- 1.3 Special Olympics vision - Special Olympics athlete's oath - official logo - goal of Special Olympics - founding principles of special Olympics
- 1.4 History and growth of special Olympics - worldwide structure of Special Olympics - accredited program structure – special Olympics Bharat (India) structure.

UNIT II: Definition of Intellectual Disability

- 2.1 General statement of eligibility
- 2.2 Eligibility for participation in special Olympics : Age requirements - degree of disability.
- 2.3 Identifying persons with intellectual disabilities and multiple Handicaps. Registration of athletes. Participation by individuals with down syndrome and Atlanto-Axial instability.

UNIT III: Introduction to Divisioning

- 3.1 Divisioning in Special Olympics -
- 3.2 Selection procedure in special Olympics and advancement opportunities:
- 3.3 Individual sports- team sports.
- 3.4 Responsibility of the competitor – coach, code of conduct. Maximum effort rule.

UNIT IV: Special Olympics Volunteers

- 4.1 Orientation to volunteer. Volunteer opportunities.
- 4.2 Official sports : official summer sports- official winter sports – recognised sports.
- 4.3 Medical and safety standards. Coaching Special Athletes.
- 4.4 Organising training session : warm- up-main part- cool-down.

UNIT V: Sports Specific Coaching

- 5.1 Coaching and teaching basic sport skills

- 5.2 Fundamental skill development. Levels of instruction
 5.3 General rule and modification of rules: Track events –Field events – Basketball - Cricket – Football – Volleyball – Bocce.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Explain the operational policies and growth and development of Special Olympics	K1, K2,
CO 2	Identify the persons with intellectual disabilities for participating in the Special Olympics	K1, K2
CO 3	Outline the selection procedure in Special Olympics and responsibility of the competitor	K1, K2, K3
CO 4	Explain the opportunities to become the volunteers in Special Olympics	K1, K2, K3
CO 5	Coach various fundamental skills development and skills in various games	K1, K2, K3
K1 - Understand		K2 - Apply
		K3 - Analyse

223MECD/224MECD - SPORTS JOURNALISM AND MASS MEDIA (ELECTIVE)

Objectives: After studying this paper the student teachers will be able:

1. To know the Sports Journalism & Mass Media concepts.
2. To know the concept of Sports Bulletin.
3. To know the effect of mass media in Journalism.
4. To know report writing on Sports.
5. To understand Sports Organization and Sports Journalism.

UNIT I - Introduction

- 1.1 Meaning and Definition of Journalism
- 1.2 Ethics of Journalism - Canons of journalism
- 1.3 Sports Ethics and Sportsmanship
- 1.4 Reporting Sports Events
- 1.5 National and International Sports News Agencies.

UNIT II - Sports Bulletin

- 2.1 Concept of Sports Bulletin: Journalism and sports education
- 2.2 Structure of sports bulletin - Compiling a bulletin - Types of bulletin
- 2.3 Role of Journalism in the Field of Physical Education: Sports as an integral part of Physical Education
- 2.4 Sports organization and sports journalism
- 2.5 General news reporting and sports reporting.

UNIT III - Mass Media

- 3.1 Mass Media in Journalism: Radio and T.V. Commentary
- 3.2 Running commentary on the radio
- 3.3 Sports expert's comments
- 3.4 Role of Advertisement in Journalism
- 3.5 Sports Photography: Equipment- Editing - Publishing.

UNIT IV - Report Writing on Sports

- 4.1 Brief review of Olympic Games, Asian Games
- 4.2 Common Wealth Games World Cup
- 4.3 National Games and Indian Traditional Games
- 4.4 Preparing report of an Annual Sports Meet for Publication in Newspaper
- 4.5 Organization of Press Meet.

UNIT -V - Journalism

- 5.1 Sports organization and Sports Journalism
- 5.2 General news reporting and sports reporting - Methods of editing a Sports report. Evaluation of Reported News. Interview with and elite Player and Coach
- 5.3 Practical assignments to observe the matches and prepare report and news of the same
- 5.4 visit to News Paper office and TV Centre to know various departments and their working
- 5.5 Collection of Album of newspaper cuttings of sports news.

Course Outcomes:

Expected Course Learning Outcomes		
On the successful completion of the course, the student will be able to:		
CO 1	Discuss the concept of sports journalism and explain the sports ethics and sportsmanship	K1, K2
CO 2	Summarize the fundamentals of sports bulletin and sports organization	K1, K2
CO 3	Explain the role of mass media and sports photography	K1, K2
CO 4	Write the sports reports on competition and organize press meet	K1, K2
CO 5	Enumerate the sports organization and sports journalism	K1, K2
K1 - Understand		K2 - Apply
		K3 - Analyse

SKILL ENHANCEMENT COURSES

224SEC1- ANY APPROVED ONLINE COURSE

Online Course: Student has to complete any one approved online course.

224SEC2 - PROFESSIONAL PREPARATION FOR SET/ NET IN PHYSICAL EDUCATION

(Question Paper Pattern: 75 Multiple Choice Questions)

Learning Objectives

1. To gain a knowledge about preparation for SLET and NET
2. To know syllabus for SLET and NET exams
3. Helps to develop profession based preparation
4. To understand physiology of muscular activity
5. To understand sports training.

UNIT I- Teaching Aptitude:

- 1.1 Teaching: Nature, objectives, characteristics and basic requirements- Learner's characteristics
- 1.2 Factors affecting teaching -Methods of teaching
- 1.3 Teaching aids - Evaluation systems. Research Aptitude
- 1.4 Research: Meaning, characteristics and type: Steps of research -Methods of research
- 1.5 Research Ethics. Thesis writing.

UNIT II- Reasoning (Including Mathematical):

- 2.1 Number series; letter series
- 2.2 codes; Relationships; classification
- 2.3 Logical Reasoning
- 2.4 Understanding the structure of arguments
- 2.5 Coding and Decoding.

UNIT III Philosophies of Education as applied to Physical Education:

- 3.1 Idealism, Naturalism, Realism, Pragmatism, Existentialism, Humanism
- 3.2 Biological basis of physical activity – benefits of exercise, growth and exercise, exercise and well-being sex and age characteristics of adolescent, body types
- 3.3 Play and Play theories, general principles of growth and development, Principles of motor – skill acquisition, transfer of training effects
- 3.4 Physical Education in ancient Greece, Rome and Germany, Sweden, Denmark and Russia
- 3.5 Olympic Movement – Historical development of Ancient and Modern Olympic Games.

UNIT IV - Physiology of Muscular activity:

- 4.1 Neurotransmission and Movement mechanism. Physiology of respiration
- 4.2 Physiology of blood circulation. Factors influencing performance in sports
- 4.3 Athletic injuries – their management and rehabilitation. Therapeutic modalities. Joints and their movements
- 4.4 Planes and axes. Levers. Laws of motion, principles of equilibrium and force, spin and elasticity
- 4.5 Posture, Postural deformities and their correction. Muscular analysis of Motor movement. Mechanical analysis of fundamental movements – (running, jumping, throwing, pulling and pushing).

UNIT V - Characteristics and principles of sports training.

- 5.1 Training load and periodization. Training methods and specific training programme for development of various motor qualities
- 5.2 Technical and Tactical preparation for sports. Short-term and long – term training plans
- 5.3 Rules of Games and Sports and their interpretations: Athletics, Badminton, Basketball, Cricket, Hockey, Tennis, Football, Volleyball. Criteria of test evaluation
- 5.4 Concepts and assessment of physical fitness, motor fitness, motor ability and motor educability
- 5.5 Skill test for Badminton, Basketball, Hockey, Tennis, Football, Volleyball.

Course Outcome

1. Understand the preparation for SLET and NET exams.
2. It helps to aware about professional preparation
3. It helps for study to syllabus base concept.
4. Understanding nature of question items (Multiple – Choice (simple selection),
 - Multiple – Selection (or multiple completion), Assertion & Reasoning, Sequencing type, Matching type and Para – Phrasing).
 - Peer Group Teaching and Discussion Concept
 - Group Discussion on need and Importance of Professional Preparation in Physical Education. UGC- NET/ SET Old Questions and Answers. Discussion on pattern of Questions.

PART-V**224MDIS1 – DISSERTATION**

A candidate shall have dissertation for M.P.Ed. - IV Semester and must submit his Synopsis and get it approved by the Principal on the recommendation of R.C. (Research Committee).

A candidate selecting dissertation must submit his dissertation not less than one week before the end of the IV Semester Examination.

The candidate has to face the Viva-Voce conducted by the Research Committee.

First Semester Practicum Course

221MPC1: TRACK AND FIELD I: (RUNNING EVENTS)

Running Events:

Fundamental skills -Short and Middle distance. Use of Starting blocks- stance on the blocks. Body position at the start- starting technique, change in body position during running, movements of the arms, stride length and frequency, position of torso while running and at finish. Advanced Skills Various techniques of sprint start: Bullet start, standing start.

221MPC2: GYMNASTICS (Floor Exercises), AEROBICS

Course contents in Gymnastics should be chalked out internally considering advance level of students and suitable to their age and gender. Practical Skill Test to be conducted after completion of syllabus.

Rhythmic Aerobics - dance Low impact aerobics High impact aerobics Aerobic kick boxing Moves March single, basics, side to side alternate, turns, double side to side, step touch, grapevine, knee up, leg curl, kickfront, toe touch, kickside, side lunge, over the top, back lunge, straddle, kickfront, travel, kick side, corner, heel to toe, shape, 'e' & 'w', shape, repeat left mode Warm up and cool down Being successful in exercise and adaptation to aerobic workout.

221MPC3: GAME OF SPECIALIZATION – I (First Best)

The Candidate has choice to select any one of the following games as the Specialization - II (First best).

(Badminton/Basketball/Cricket/Football/Handball/Hockey/ Kabaddi/ Kho-kho/ Tennis/ Volleyball)

221MPC4: TEST, MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION

Practicals of Test, measurement and evaluation in physical education to be taught

Second Semester

222MPC1: TRACK AND FIELD II: JUMPING EVENTS AND HURDLES

JUMPING EVENTS (Long Jump, Triple Jump, High Jump and Pole Vault) AND HURDLES (100 m, 110 m and 400 m men and women).
Fundamental Skills. Advanced Skills and various techniques. Rules and Regulations

222MPC2: GAME OF SPECIALIZATION I (First Best)

The Candidate has choice to select any one of the following games as the Specialization - I (First best).

(Badminton/Basketball/Cricket/Football/Handball/Hockey/ Kabaddi/ Kho-kho/Tennis/Volleyball)

222MPC3: YOGA

Yoga, Asanas prescribed by Maharishi 'Patanjali', Shudhi Kriyas, Jalneti, Sutraneti, Dugdhaneti, Kunjal, Nauli, Bhastrika, Shatkriyas, Pranayams, Anulom-vilom, Kapalbhathi, Bandhas, Mudras, Surya Namaskar.

Third Semester Practicum Course

223MPC1: TRACK AND FIELD III: THROWING EVENTS

Course contents in throwing events (Shot put, Discus throws, Javelin throw and Hammer throw) should be chalked out internally considering advance level of students. Practical Skill Test to be conducted after completion of syllabus

223MPC2: GAME OF SPECIALIZATION - II (Second Best)

The students need to develop proficiency in taking coaching lesson in selected game discipline. In view of this, the students shall be provided with advance training and coaching in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class they are going to handle at school and college level.

Each student teacher is expected to take at least five lessons during the course of the third semester. The lessons will be supervised by the faculty members who would discuss the merits and demerits of the concerned

lesson and guide them for the future. In these coaching lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

223MPC3: GYMNASTICS (WITH APPARATUS)
**COMBATIVE SPORTS: (BOXING/ FENCING/ JUDO/ KARATE/
TAEKWONDO/ KALARI) Any one**

Course contents in Gymnastics should be chalked out internally considering advance level of students and suitable to their age and gender. Practical Skill Test to be conducted after completion of syllabus.

The students need to develop proficiency in taking coaching lesson in selected game discipline. In view of this, the students shall be provided with advance training and coaching in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class they are going to handle at school and college level.

223MPC4: FITNESS TRAINING
